

Welcome to a compilation of all my Frontend Mentor Challenges

Hi! My name is Javier Musso and I'm always learning new things. That's why I started doing this challenges. This website was created to better organize my takes on this fun projects provided by Frontend Mentor. I've learned a lot thanks to this challenges, thus I'll try to complete them all. So far I got N done!

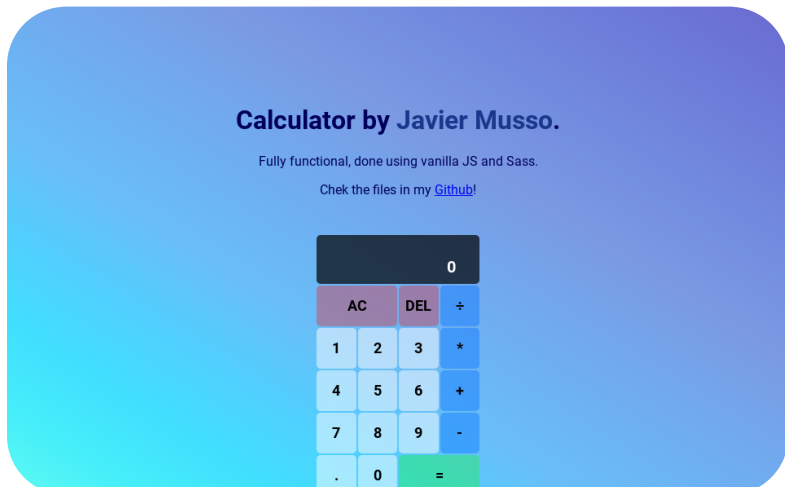

You can find all the projects files in my GitHub, and check my twitter or linkedin for more info about them.

All live sites are hosted at Netlify. Huge thanks to them also!

1 Newbie challenges

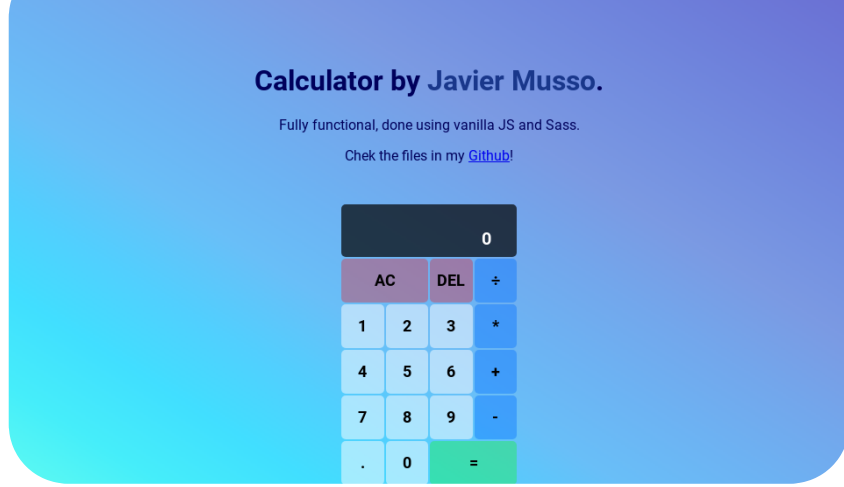

This where the first ones I tried. Easy to start with but usefull to learn the basics.

Calculator app

(H) (C) (J)

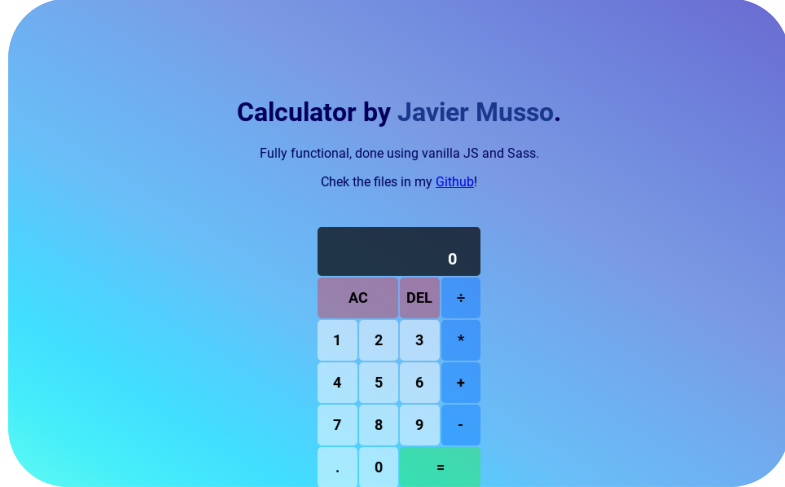

This is a simple calculator. Used grid and some validation with JS.

Calculator app
